Scenario	Step	Status	Screenshot
Perform CRUD operations on Test Exceptions page	I navigate to the "Test Exceptions" page	PASSED	 <p>The screenshot shows the homepage of 'Practice Test Automation'. The main content area is titled 'Test Exceptions'. It contains a heading 'Create list of your favorite foods' and a table with one row. The first column is labeled 'Row 1' and contains the value 'Pizza'. To the right of the table are three buttons: 'Edit', 'Add', and a small 'X' icon.</p>
Perform CRUD operations on Test Exceptions page	I add a new row	PASSED	 <p>The screenshot shows the 'Test Exceptions' page after a new row has been added. The table now has two rows: 'Row 1' with 'Pizza' and 'Row 2' which is currently empty. The 'Edit' and 'Add' buttons are still present.</p>
Perform CRUD operations on Test Exceptions page	I wait for new row is appear	PASSED	 <p>The screenshot shows the 'Test Exceptions' page after the new row has been successfully saved. A green message box at the bottom left says 'Row 2 was added'. Below this, a section titled 'Test case 1: NoSuchElementException' lists steps 1 and 2: 'Open page' and 'Click Add button'. The table now has two rows: 'Row 1' with 'Pizza' and 'Row 2' with an empty input field.</p>

Perform CRUD operations on Test Exceptions page	I input "Hello World" into the new row and save	PASSED	<p>Test Exceptions</p> <p>This page is created to be able to reproduce the most common Selenium Exceptions. Follow test cases below to see exactly how to get: ElementNotInteractableException, ElementNotVisibleException, NoSuchElementException and StaleElementReferenceException. If you want to learn how to deal with these exceptions in your tests, check out my Selenium WebDriver with Java for beginners program.</p> <p>Create list of your favorite foods</p> <p>Row 1 Pizza</p> <p>Row 2 Hello World Edit Remove</p> <p>Row 2 was saved</p> <p>Test case 1: NoSuchElementException</p> <p>1. Open page 2. Click Add button</p>
Perform CRUD operations on Test Exceptions page	I edit the row with "Updated Text"	PASSED	<p>Test Exceptions</p> <p>This page is created to be able to reproduce the most common Selenium Exceptions. Follow test cases below to see exactly how to get: ElementNotInteractableException, ElementNotVisibleException, NoSuchElementException and StaleElementReferenceException. If you want to learn how to deal with these exceptions in your tests, check out my Selenium WebDriver with Java for beginners program.</p> <p>Create list of your favorite foods</p> <p>Row 1 Pizza</p> <p>Row 2 Hello World Edit Remove</p> <p>Row 2 was saved</p> <p>Test case 1: NoSuchElementException</p> <p>1. Open page 2. Click Add button</p>
